

**WORLD INSTITUTE FOR SCIENTIFIC EXPLORATION**

Cutting-Edge Research &amp; Applications

***Volume 1, No. 5, July-August, 2012***

*Dear WISE Members,*

We have a lot more exciting news about the various activities and projects that WISE has been working since the last issue in June. We were a little delayed in publishing this issue, because of all that has been going on in various countries of the world.

More people are continuing to join WISE, and more current members are volunteering to help start research projects, becoming a division, department or national advisors and directors, and offering other support for our great quest to do research on scientific anomalies, alternative and traditional medicine, and to develop technologies and services from that research that will benefit people.

In this issue we are happy to announce that **an additional \$10,000.00 has been awarded for the EYELIGHT Research Project, headed by Dr. Jacob Liberman and Kent Noonan.**

We are proud to announce that **several prominent researchers and physicians have been named to the WISE Board of Distinguished Scientific Advisors.** These distinguished members are from seven different countries.

**The first WISE research branch in India has been established** in the city of Chennai (formerly Madras), a major center of learning, research, and culture in India, and **will be headed by Dr. Shanmugamurthy Lakshmanan.**

The **National Complementary, Alternative, and Traditional Medicine Library (NCATML)** has been established to compliment the **National Library of Anomalies and Unexplained Phenomena**, which was established some time ago.

**Wise national Advisory Councils have been established in several countries around the world,** to provide advice and leadership in forming WISE research branches and chapters in those countries

**An update on the WISE Digital Anomalies Library (DAL)** reports that a complete set of the journal **Pursuit has been assembled and will be the first journal that WISE digitizes.** Pursuit was the journal of the **Society for the Investigation of the Unexplained (SITU)**

WISE website: <http://instituteforscientificexploration.org>      WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

**So many benefits, programs, and projects have been established by WISE** to benefit our members that it is sometime hard to remember them all. So we have included a summary of them in this issue, and encourage you to participate in any of the programs or project you may find of interest.

**Finally, again there are several advertisements you may find of interest.** Most advertisements are not very interesting, but WISE advertisements are often not only interesting, but even exciting in some cases.

***Wishing you wonderful Summer days,***

*John Reed, M.D., Dominique Surel, Ph.D., Dick Blasband, M.D.*

## **Additional \$10,000.00 Grant Awarded for EYELIGHT Research Project**

As reported in the May issue of the WISE Newsletter, Dr. Jacob Liberman and Kent Noonan were awarded a large grant of \$35,000.00 through the WISE Research Grant and Funding Program. This grant was awarded by a private foundation for the purposes of conducting research on the EYELIGHT Project being conducted by Dr. Liberman, Kent Noonan, and others. Because of the great potential for enhancing human health and healing, Dr. Liberman and his team have just been awarded an additional \$10,000.00.

The EYELIGHT Project is developing a unique light based technology to assess and enhance wellness, revolutionizing our understanding of how light interacts with the human body. It will accomplish this by evaluating the spectral composition and interaction of light entering and exiting the eyes, and using that knowledge to apply color therapeutically by way of the eyes in a way that is gentle and guided by the body's innate intelligence. "Imagineering" this cutting edge technology, EYELIGHT has woven together the scientific insights, clinical experience, and technical expertise of Dr. Jacob Liberman and Kent Noonan. The introduction of Dr. Liberman's book *Light: Medicine of the Future* began with the words, "Fasten your seat belt". Now, EYELIGHT will fulfill Dr. Liberman's dream, by birthing an entirely new way of viewing, evaluating, and optimizing the *Human Energy System*.

---

## **New Appointees to WISE Board of Distinguished Scientific Advisors**

**We are proud to announce that several prominent researchers and physicians have been named to the WISE Board of Distinguished Scientific Advisors.  
They are (in alphabetical order):**

1. **Larissa Cheran, Ph.D.**, University of Toronto, Toronto, Canada, and formerly Institute of Microtechnologies, Bucharest, Romania
2. **Vijay K. Gupta, Ph.D.**, University of Colorado, Boulder, Colorado; World Community Service Center (WCSC), Chennai, Tamil Nadu, India
3. **Yury Kronn, Ph.D.**, Energy Tools International, Eagle Point, Oregon; and formerly Russian Academy of Sciences, Moscow, Russia
4. **Shanmugamurthy Lakshmanan, Ph.D., MS, MSc.**, New Jersey Institute of Technology, Newark, New Jersey; International Institute of Human Excellence, Chennai, Tamil Nadu, India

WISE website: <http://instituteforscientificexploration.org>      WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

5. **Lynhiavu LySao, M.D.**, Distinguished Surgeon, Chief of Surgery, Hopital de l'Amitie, Vientiane, Laos
6. **Robert Patterson, Ph.D.** University of Minnesota School of Medicine, Minneapolis, Minnesota
7. **Stoyan Sarg Sargoytchev, Ph.D.**, York University, Toronto, Canada; and formerly Central Laboratory for Space Sciences, Bulgaria Academy of Sciences, Sofia, Bulgaria
8. **Jean-Christophe Terrillon, Ph.D.**, Japan Advanced Institute of Science and Technology, Ishikawa, Japan

---

## **First WISE Research Branch Established in India**

We are proud to announce that the first of several planned WISE research branches in India has recently been established in the major Indian city of Chennai (formerly known as Madras) in the state of Tamil Nadu, in southeastern India.

This branch is being headed by Dr. Shanmugamurthy Lakshmanan, who has a Ph.D from the New Jersey Institute of Technology (NJIT), and three masters degrees, in science, philosophy, and the arts. Dr. Lakshmanan was the founder of the International Institute of Human Excellence in Nilgiris, Tamil Nadu, India, and was also the founder of the New Jersey branch of the World Community Service Center, which is headquartered in Tamil Nadu. In addition, Dr. Lakshmanan is a board member of the Human and Animal Welfare Association in Chandigar, India, and a trustee of the Simplified Kundalini Yoga (SKY) Trust in Tamil Nadu, and in 2005 registered SKY-USA as a nonprofit organization.

Chennai, with a population of more than 8 million, is not only one of the major industrial cities of India, but also a well established center of learning, research, and culture. Chennai has more than twenty universities and colleges, including four medical schools. In addition, there are numerous research institutes in Chennai, including a branch of the US National Institutes of Health (NIH), which established an International Center for Excellence in Research in Chennai several years ago.

---

## **National Complementary, Alternative, and Traditional Medicine Library (NCATML) Is Established**

Doing research on and practicing complementary, alternative, and traditional medicine therapies is one of the major activities of WISE members worldwide. In order to help facilitate that research, WISE has decided to establish both a hard copy and digital National Complementary, Alternative, and Traditional Medicine Library (NCATML).

WISE website: <http://instituteforscientificexploration.org>      WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

This library already has hundreds of books, periodicals, and articles on all subjects related to alternative and traditional medicine, including: acupuncture, alternative AIDS therapies and theories; aura field and Kirlian medical diagnostics; alternative cancer therapies; energy medicine therapies; magnetic and electromagnetic field therapies; homeopathic therapies; mental and faith healing; naturopathic medicine; music and sound therapy; nutritional and nutraceutical therapies; phage therapies; radiesthesia, radionics, medicinal plants, traditional and folk medicine; shamanic medicine, and many other subjects. In addition, the library has a large collection of books and materials on anti-aging medicine.

However, we would like to make this library as comprehensive as possible, and so we would like to request that anyone who would like to donate or otherwise provide any books, periodicals, or other materials to this library, to please let us know at: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com). The NCATML will function not only as a valuable research resource for all WISE members, but it will also function as a repository and archive where the collections of living or deceased researchers can be preserved. In addition, the NCATML will also be able to preserve the collections of defunct organizations and periodicals in the alternative and traditional medicine fields.

---

## **WISE National Advisory Councils Established in Several Countries**

As announced in June's WISE Newsletter, WISE plans to establish research branches in countries around the world. We are happy to report that that WISE is making good progress toward achieving that goal, and has established WISE National Advisory Councils in Canada, India, Romania, Bulgaria, Russia, Japan, Laos, and Finland. The National Advisory Councils consist of professors, physicians, researchers, and other prominent people from each country, or who have a strong interest in a given country. These Councils are designed to provide advice and leadership in establishing WISE research branches in major cities of each country, as well as, chapters at major universities.

WISE wants to encourage people from the various countries take the leadership and advisory roles, because they are much more aware of local cultural, legal, and community traditions and practices, and would be much more effective in establishing WISE branches to promote innovative research. So if you are from a country outside the US and would like to be on the WISE National Advisory Council for your country, please let us know by emailing WISE at: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com). Even if you are currently living in the US, Canada, or some other country outside your original homeland, please write.

---

WISE website: <http://instituteforscientificexploration.org>      WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

## WISE Digital Anomalies Library (DAL) Update

As we announced in the June, 2012 newsletter, the World Institute for Scientific Exploration (WISE) has established a **Digital Anomalies Library (DAL)** to complement the hard copy **WISE National Library of Anomalies Literature**. Most of the hundreds of anomalies periodicals that have been published over the years are out of business or otherwise very hard to find, since few libraries subscribed to such periodicals.

One such periodical is **Pursuit**, published by the Society for the Investigation of the Unexplained (SITU) from 1967-1989, with a total of 85 issues. This periodical is found in only 20 libraries in the world, including 19 widely dispersed US libraries, and one library in Alberta, Canada, and most of these libraries do not have complete sets of **Pursuit**. Because of those factors that would make accessing a complete set of Pursuit so difficult, and the fact that Pursuit had so many interesting articles on anomalies subjects of all kinds, it was decided to make the digitization of Pursuit as the pilot project for periodicals in the Anomalies Digital Library.

A complete set of **Pursuit** issues has been assembled with the help of Dr. Michael Swords, and they will shortly be taken to a commercial digitizing company where they will be digitized and put on a CD or DVD and be made available to the world. This should be completed sometime in September, 2012.

But **Pursuit** is just the first of dozens of anomalies periodicals that WISE plans to digitize, and we will also be digitizing dozens of complementary, alternative, and traditional medicine periodicals as well.

We do not want to duplicate other's efforts, however, by spending precious time and money digitizing things that have already been digitized. We would, therefore, like to request that all people check their hard drives, CDs, and any databases they have access to and let us know if they find any periodicals that have already been digitized related to anomalies, complementary, alternative, or traditional medicine, parapsychology, or paranormal subjects of any kind.

You can write to us at: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com), and we appreciate your help very much. With your help, we will be able to build digital libraries that will be very useful and accessible to researchers world-wide.

---

WISE website: <http://instituteforscientificexploration.org>      WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

## Summary of WISE Benefits and Programs

In the short time of six months since WISE was launched in December, 2011, WISE has been very active and is proud to have established a great many benefits and programs for its members.

There are so many that it is sometimes hard to remember them all. So we are going to start including this summary of your benefits and programs in each newsletter, and just add to it as new programs are established.

Details of these programs and benefits may be found on the WISE website at <http://instituteforscientificexploration.org> and in the recent WISE Newsletters announcing these programs, also available on the WISE website:

1. **Research Grant and Funding Service:** With this service, WISE enables and helps its members to apply for and acquire research grants, research contracts, and other funding for their research projects. For example, WISE has recently helped members to receive research grants of US \$35,000.00, \$10,000.00, and US \$5,000.00, with other grants and funding in the works.
2. **Publishing Services Benefits:** WISE has established a program to help researchers, authors, and writers to get their articles prepared for publication and then published in journals and periodicals, and made available for the world to see online. We want to enable anyone in the world to publish his or her research and other creative works, without the traditional frustrations and impediments to publication that authors have historically faced, especially researchers and authors in developing nations, who have sometimes been discriminated against by editors and peer reviewers of journals published in Western countries.
3. **CV-Resume Enhancement Benefits:** All WISE “members” are not just members of an organization, but have the official status of Directors, Faculty members, Research Scientists, Fellows, Advisors, Researchers, and Research Associates, depending on their prior accomplishments and appointments within WISE. As such, WISE members can note their position on their resume or CV, on business cards, letterheads, on job applications, or in other appropriate places.
4. **Compensation and Commissions:** All WISE members can earn extra money for themselves, because for every new WISE member you recruit to WISE, you will be paid US\$20.00. Thus, if you have recruited 5 new WISE members, you will receive US\$100.00, or if 10 new WISE members, then you will receive US\$200.00, and so on. You may recruit as many WISE Faculty members, Advisors, Researchers, or Research Associates as you want. And you may use any form of print or broadcast media, as well as, Facebook, Twitter, LinkedIn, blogs, text messages, discussion groups, mailing lists,

WISE website: <http://instituteforscientificexploration.org>      WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

and other social networking services. (See further details on this program at: <http://instituteforscientificexploration.org/join-the-world-institute-for-scientific-exploration-wise/>. In addition, you may also recruit WISE members by distributing the attractive WISE promotional handout at any and all meetings you attend around the world. This handout is a Word document, so just add your name and contact information to the bottom of the handout, print as many as you want and hand them out, or put them on one of the tables for such items, usually near the entrance to meeting lecture halls. The handout is available at: <http://instituteforscientificexploration.org/wp-content/uploads/2012/05/April.doc>

5. **Monthly WISE Newsletter:** WISE publishes a monthly newsletter to keep you up-to-date and well informed on all WISE activities. But the WISE Newsletter is also a forum whereby all members can report their significant accomplishments and activities, such publishing articles or books, delivering presentations at conferences and meetings, conducting significant research projects or field investigations, or doing anything else of significance.
6. **International Branches of WISE, Worldwide:** WISE has already established branches in Hong Kong, China, Riga, Latvia, Helsinki, Finland, and Chennai, India, with others in the planning stage and various stages of development in Beijing, London, Paris, Berlin, Rome, Moscow, Chennai, India, Rio de Janeiro, Brazil, Lagos, Nigeria, and other major cities around the world. Because there are people in every city of the world who have an interest in scientific anomalies, alternative and traditional medicine, and unexplained phenomena of many kinds, **WISE wants to establish branches and chapters in the major cities of all countries and nations of the world**, so that everyone can collaborate, network, and work together to further the research on these subjects. **So please let us know if you would like to establish a WISE research branch in your country, and we will help you set it up.**
7. **Speakers Bureau and a Professional Booking Office:** WISE has recently established a Speakers Bureau and Professional Booking Office for WISE members who wish to be available for professional speaking engagements, radio and TV appearances, or other public events and venues. In addition, this service is also for WISE members who may wish to have assistance in booking their other professional services such as those related to special healing abilities, special mental abilities, special training services, or other special services that members provide.
8. **Anomalies Literature Preservation Program (ALPP):** WISE has established an Anomalies Literature Preservation Program to track down, acquire, and preserve personal and organization collections and libraries of anomalies literature, alternative and traditional medicine literature, parapsychology, and related literature. Many collections are at risk for loss, especially the collections and files of defunct or dying organizations and periodicals, as well as, the collections of people who have passed away.

WISE, will preserve such at risk collections, as well as provide a place where individuals can have their own personal collections and papers preserved, within the **WISE National**

WISE website: <http://instituteforscientificexploration.org> WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

**Library System**, through the **International Coalition of Anomalies Libraries and Collections (I-COALC)**, and through the **International Coalition of Complementary, Alternative, and Traditional Medicine Libraries and Collections (ICCATMLC)** will attempt to preserve such at risk collections, as well as provide a place where individuals can have their personal collections and papers preserved.

9. **Professor Research Assistance Program to (PRAP):** WISE has recently established the Professor Research Assistance Program (PRAP) to help busy professors with their research on scientific anomalies, alternative and traditional medicine, parapsychology, and research in other anomalies field with their research. Professors are notorious for having many ongoing projects, but too little time or help to do them. And this is especially so with research on the above subjects, where the professor can expect little or no help or sympathy from his or her university department. So with this program, WISE will help find volunteers who can assist professors with their most daring research projects.
10. **Author Research Assistance Program (ARAP):** WISE has also established an Author Research Assistance Program (ARAP) to help authors of books and articles on scientific anomalies, alternative medicine, parapsychology, and related subjects. Research materials on such subjects is frequently difficult to find, since such literature is often not in even the largest of libraries, and may not be indexed in even the most comprehensive indexes of conventional scientific, and social science literature. Authors therefore frequently need specialized research assistance, which WISE will help to provide.
11. **Digital Anomalies Library (DAL) to Complement the WISE Library and Archives:** WISE has established a Digital Anomalies Library to complement its existing large library of several thousand books and periodicals on anomalies, alternative and traditional medicine, parapsychology, and other subjects. WISE has also begun to digitize anomalies journals and periodicals in order to make this literature available to researchers around the world.
12. **International Coalition of Anomalies Libraries and Collections (ICOALC)** and the **International Coalition of Complementary, Alternative, and Traditional Medicine Libraries and Collections (ICCATMLC)**, established to preserve collections rescued from defunct organizations and periodicals, and deceased people, as well as, collections of living individuals who would like to have their collections preserved.

**And this is just the beginning.** We have numerous other valuable programs and projects in the works, especially the **WISE Online Encyclopedia**, similar to Wikipedia, but without their very biased approach to anomalies, alternative medicine, parapsychology, and related subjects. This will cover every anomalies and alternative medicine subject, organizations, periodicals, books, articles, and people doing research or interested in scientific anomalies. All will have their own page in the **WISE Online Encyclopedia**. **Also**, please let us know of any other programs or benefits that you would like to see WISE establish. We value your opinion highly, and we would like to get as many people as possible actively involved in this very exciting field of research and development. **You can write to us at: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)**

WISE website: <http://instituteforscientificexploration.org>      WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

## Classified Ads, Display Ads, Announcements

*The ISE Newsletter is distributed to over 1,500 people who are interested in anomalies  
 COST: \$5 for 1/4page or less, and each ¼ increment above ¼ page. Full page: \$20*

### Help Wanted for Wordpress, and Wiki Development

**Do any of you have experience using Wordpress or developing wikis??**

WISE needs your help or advice in these two areas, because we use Wordpress for the WISE website, and because we are developing the gigantic online anomalies wiki encyclopedia. If so, please contact John at: [iseresearch51@yahoo.com](mailto:iseresearch51@yahoo.com) Thank you.

### INFORMATION WANTED

**Does anyone know anything about a man named  
 HENRY SCHLANGER?**

There may be more than one **Henry Schlanger**, but the one we are looking for compiled the 63 page index to the 1941 edition of the book called, **The Books of Charles Fort** (1,125 pages). This Mr. Schlanger may no longer be living, but if any of you with some genealogical research experience could lend a hand in locating his family or any biographical information about him, we would greatly appreciate it. **Please reply to: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)**

### Where Are T. Townsend Brown's Papers ?

**Does anyone know anything about what happened to T. Townsend Brown's papers, laboratory notes, and other items?**

Please reply to: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE website: <http://instituteforscientificexploration.org> WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

## **Collections of Anomalies Books, Periodicals, and Papers Wanted for Preservation and Research**

**Do you know of any defunct or inactive anomalies organizations or periodicals, or were you perhaps a leader, member, editor, or subscriber yourself?**

Hundreds of anomalies organizations and periodicals have come and gone over the years, and many of the records, papers, and anomalies literature collections that these organizations and periodicals maintained are at risk for being lost, and in some cases have already been lost forever. Tax deductible donations of such literature are encouraged, but WISE stands ready, willing, and able to purchase such items, if necessary, to prevent their loss.

**The World Institute for Scientific Exploration (WISE) has established an Anomalies Literature and Papers Preservation Program (ALPPP)** and needs your help in tracking down the former leaders of any defunct organizations and periodicals you know about. We need your help, because we want to preserve these collections so they will not be lost, and so they can be used for research purposes. So if you know of any leaders or editors of defunct anomalies organizations or periodicals, **please email WISE at: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)**, because only with your help can we preserve this important anomalies literature. This literature will be preserved in the National Library for Anomalies and Unexplained Phenomena (NLAUP), headquartered in Baltimore, and at its various branches around the US and overseas. Thank you for any help you can provide.

## **Information Wanted about the Smithsonian “Secret Warehouse.”**

**Do any of you know anything about the legendary “Secret Warehouse” maintained somewhere by the Smithsonian Institution in Washington, D.C.??**

Legend has it that this is where the Smithsonian stores all of the anomalous artifacts and technologies that don't fit well with accepted theories of archaeology, human history, evolution, and other current scientific paradigms. An anonymous WISE benefactor is funding the **WISE “Smithsonian Secret Warehouse Project”** and is offering substantial money for leads and other information about the existence of this warehouse, either for or against.

Please write to WISE at the following email address if you know anything about this:

[iseresearch51@gmail.com](mailto:iseresearch51@gmail.com) , because with your help,

***one of the enduring mysteries of modern times can be solved.***

WISE website: <http://instituteforscientificexploration.org>

WISE email address: [iseresearch51@gmail.com](mailto:iseresearch51@gmail.com)

WISE International HQ: 4401 Roland Ave., Suite 405, Baltimore, MD 21210

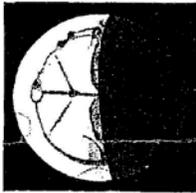

Add \$2 postage for 1 book. Free postage for 2 or more.

## ASTRONOMY CATALOGS

### THE MOON AND THE PLANETS; A Catalog of Astronomical Anomalies

\$18.95

From our own moon's cratered surface to the red, rock-strewn plains of Mars, the Solar System is a fertile field for anomaly research. Despite centuries of observation, each new spacecraft and telescope provides us with new crops of mysteries.

One drawing of the Venusian radial-spoke system

#### TYPICAL SUBJECTS COVERED

- The ashen light of Venus
- The "face" on Mars
- Kinks in Saturn's rings
- Debates about the Voyager life-detection experiment
- Neptune's mysterious ring
- Evidence of water on Mars
- The strange grooves of Phobos
- Mars' topographic dichotomy
- Lunar clouds, mists, "weather"
- New-moon ring of light
- Dark transits of Jovian moons
- Io's energetic volcanoes
- Jupiter as a "failed star"
- Earth-Venus resonance

#### COMMENTS FROM REVIEWS

The author is to be commended for his brilliantly conceived and researched volume. SCIENCE BOOKS & FILMS

383 pp., hardcover, \$18.95  
86 illus., 4 indexes, 1985  
988 references, LC-85-61380  
ISBN 0-915554-19-4, 7x10

### THE SUN AND SOLAR SYSTEM DEBRIS; A Catalog of Astronomical Anomalies

\$17.95

Our sun, powerhouse of the solar system and an enigma itself, is orbited by clouds of asteroids, comets, meteors, and space dust. These "minor objects" pose major problems to astronomers regarding their origin and constitution.

#### TYPICAL SUBJECTS COVERED

- Solar-system resonances
- Bode's Law, other regularities
- Blackness of comet nuclei
- Cometary activity far from the sun
- Unidentified objects crossing the face of the sun
- The "missing" solar neutrinos
- Pendulum phenomena during solar eclipses
- Observations of Planet X
- Meteorite-distribution anomalies
- Lunar and Martian meteorites
- Long fireball processions
- Long-duration meteors
- Zodiacal-light changes

One of the many possible modes of solar-surface oscillation

#### COMMENTS FROM REVIEWS

It is an unusual book, nicely executed, and I recommend it highly. ICARUS

288 pp., hardcover, \$17.95  
66 illus., 4 indexes, 1986  
874 references, LC 86-60231  
ISBN 0-915554-20-8, 7x10

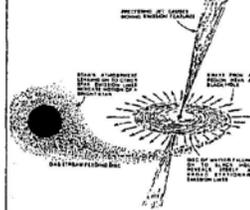

### STARS, GALAXIES, COSMOS; A Catalog of Astronomical Anomalies

\$17.95

Did the Big Bang really begin the existence of all we know? Do we honestly know how the stars (and our sun) work? Can we always rely on Newton's Law of Gravitation? According to this volume, the answer seems to be: "Probably not!"

#### TYPICAL SUBJECTS COVERED

- Optical bursters, flare stars
- Color changes of Sirius
- Infrared cirrus clouds
- Quasar-galaxy associations
- The red-shift controversy
- Quantization of red shifts
- The quasar energy paradox
- Superluminal phenomena in galaxies and quasars
- Evidence for universal rotation
- Swiss-cheese structure of cosmos
- Is the "missing mass" really missing?
- Superluminous infrared galaxies
- Shells around elliptical galaxies

Model of the mysterious star SS 433

#### COMMENTS FROM REVIEWS

...it never fails to be interesting, challenging and stimulating. NEW SCIENTIST

246 pp., hardcover, \$17.95  
50 illus., 4 indexes, 1987  
817 references, LC 87-60007  
ISBN 0-915554-21-6, 7x10

## BIOLOGICAL ANOMALIES: BIRDS: A Catalog of Enigmas and Curiosities

\$27.50

### TYPICAL SUBJECTS COVERED

- Asymmetrical birds
- Wing claws and spurs
- Inherited callosities
- Unrelated birds that look alike
- Enigmas of avian instincts
- The intelligence of birds
- An avian aesthetic sense?
- Birds that roost upside-down
- The insidious nature of brood parasitism
- Avian battles, courts, funerals
- Unsolved mysteries of migration
- Poisonous birds
- The unique avian respiratory system
- The two-voice phenomenon
- Echolocation in birds

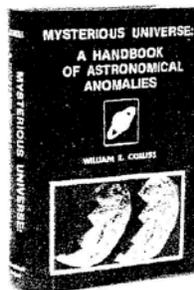

The Hoopoe is a strikingly patterned Old World bird that repels predators with a smelly glandular secretion.

486 pages, hardcover, \$27.50  
150 illus., 3 indexes, 1998  
1170 references, LC 91-68541  
ISBN 0-915554-32-1, 7 x 10

## MYSTERIOUS UNIVERSE

### A HANDBOOK OF ASTRONOMICAL ANOMALIES

- Zodiacal light changes
- Martian light flashes
- Periodicity of Jovian markings
- Double shadows of Jovian satellites
- Knots on Saturn's rings
- 1847 ring of Neptune
- Bright objects near sun
- Solar-system resonances
- Jumping stars
- Sun's companion star
- Cosmological paradoxes
- Relativity contradicted
- Light slowing down?
- Eclipses affect pendulum periods
- Planets and sunspots
- Lost intramercurial planet
- Satellite of Venus
- Venus' ashen light
- Venus' radial spokes
- Small earth satellites
- Transient lunar phenomena
- Dark lunar eclipses
- Lunar lightning
- Lunar duststorms
- Erratic meteors
- "Sedimentary" meteorites
- Life-chemistry in space
- Rift in zodiacal light

\$19.95

#### REVIEWERS' COMMENTS

... the book is to be highly recommended. It has been well produced, extremely well indexed and is excellent value for money. NATURE

... a remarkable full compilation of scientific head-scratching about unexplained phenomena in the heavens surrounding our planet. NEW YORK TIMES

Reproductions of original sources  
710 pages, 106 ill. cloth  
ISBN 0-915554-05-4  
LC 78-65616, 1979 indexes
